The RAW SEWAGE and HOUSEHOLD GARBAGE collection list of schedule for the end/start of the year are as follows:

Please note that from the end/start of the year until the end of January, the waste items and collection date may be different as compared to the regular month schedule. Please be sure to confirm the schedule on the Garbage Calendar. (Garbage must be placed on its designated collection location by 8:00am)

Also, because of extraordinary excretion of raw sewage and household garbage at the end of the year, for those who desire to have door to door and oversized garbage collection, it is required to apply directly to the designated contractors until the application deadline.

End/Start of the Year Household Garbage

Due to a very large amount of garbage every end/start of the year, there is a possibility of drastic change in collection time and route than the usual schedule. Please be sure to bring the garbage on its designated collection location by 8:00am.
