

2026 Edition Household Garbage Separation & Disposal Instructions

-In order to create a recycling-based society, garbage is separated and collected to reduce waste and effectively use resources.
-If your designated garbage collection site is shared, please set out your garbage **by 8:00 AM**.
-Trash may not be picked up if taken out after 8am or if not separated properly.
-Kitchen waste is recycled through a composting program. If you do not already participate in the program, please apply.

Version**

Questions? Koka City Hall, Seikatsu Kankyo Ka Tel. 0748-69-2145
Tsuchiyama Chiiki Shimin Center Tel. 0748-66-1101

Burnable Garbage Kitchen Waste

Twice per Week
Mondays / Thursdays

- Place burnable garbage in a designated garbage bag, write your name on the bag, and dispose.
- Reduce your food waste as much as possible.

***If you throw away any kitchen waste with your burnable garbage, please drain away any excess water.**

Plastic Waste

*** there will be one week a month when there is no plastic waste collection.**

Fridays

- Place plastic waste in a designated plastics-only bag, write your name on the bag, and dispose.
- For stained items, please dispose with Burnable Garbage (see left).

4-Types of Home Appliances

AC/TV/Fridge(Freezer)/Washer(Dryer)

- The above appliances that cannot be returned to the store of purchase are accepted.
- Buy a disposal ticket at your local post office and call the disposal company below to schedule a pick-up.
- Items will be picked up in front of your home on the scheduled day.

**Company: Hirose
TEL: 0748-52-0943**

- You can bring in directly to the designated pick-up station. Refer to Garbage Dictionary for more details.

Burnable & Non-Burnable Bulk Garbage

Items with a combined height, width, and depth of 1 meter or more.

- Buy bulk garbage disposal tickets at city hall or other distribution sites and call the disposal company below to schedule a pick-up (not including 4-Types of Home Appliances).

**Company: Hirose
TEL: 0748-52-0943**

- Items will be picked up in front of your home on the scheduled day.
- Please call and make a request to dispose an oversized burnable garbage before bringing in directly to the Eisei Center. 50 yen per 10kg will apply.
- Non-burnable bulk garbage can also be taken directly to the processing center, but you still need to buy a ticket in advance.

***Please remove batteries and fuel from any electrical appliances before throwing them away.**

- Accepts recyclables, non-burnables, and non-burnable bulk garbage.
- Before bringing bulk garbage, you must buy a bulk garbage disposal ticket (300 yen) at Koka City Hall, Tsuchiyama Chiiki Shimin Center, or other locations that sell tickets.

Greater Koka Area Gov't Sanitation Center

Burnables, Large burnable garbage

**Minakuchi-cho, Minakuchi 6677
TEL 0748-62-5454**

Open Mon - Fri [including holidays] 8:30 AM - 12 PM/1PM - 4:30 PM
-Closed from Dec. 31st to Jan. 3rd
-There is a fee of 50 yen per 10 kgs of garbage.
-Please do not bring non-burnable items. - Items will be accepted if put into designated burnable garbage bags (no charge).

*** When disposing of large burnable waste that exceeds 80 cm in total length, width and height per item, you must make a reservation either online or by phone before bringing it in. If no reservation is made, or due to problems with the facility's equipment, etc., garbage may not be brought in.**

Cans

- Juice, beer, canned goods cans, and candy tins up to 18 liters in volume are accepted.
- Empty contents and rinse with water.

***You do not need to separate aluminum cans from steel cans.**

Spray Cans

Including gas canisters

- Separate out empty spray cans and put them in the proper container.
- You do not need to punch a hole in spray cans. Please use up as much of the contents of the spray can as possible.

Lighters

***Lighters are NOT landfill waste**

- Dispose only the lighters into the designated container.
- Please bring lighters to Seikatsu Kankyo Ka at Koka City Hall or your closest Chiiki Shimin Center.

Fluorescent Tubes

- Put light bulbs and fluorescent tubes (including broken ones) into the proper container. Dispose of LED light bulbs as metals and small electrical appliances.

Glass Bottles

-Only bottles containing food and drink can be collected. Ceramics, cosmetic bottles, glass cups and other glassware, and plate glass should be placed in containers for landfill waste.

- Separate bottles by color (clear, brown, and other) and place them in the proper container.
- Empty contents and rinse.
- Labels may be left on. When disposing of bottle caps, separate them according to their material type.

Used Cooking Oil

- Pour used oil into a clear PET bottle, close the lid securely, and place it inside the collection area to dispose.
- Dispose of unopened products as is (i.e. sealed).

***Do not discard motor oil or fuel.**

Landfill

- Ceramics, glass, cosmetic bottles, etc.

***Do NOT put lighters into landfill.**

Dead Batteries

- Take nickel-cadmium, nickel-metal hydride, lithium-ion, and small sealed lead-acid batteries to collection partner stores.^{*)}
- Button-type batteries should be taken to the designated collection partner stores.
- Coin batteries (CR and BR) should be brought to the Seikatsu Kankyo Ka (Consumer and Environment Protection Division), Eco Station, or non-burnable garbage processing facilities with adhesive tape or similar (insulating material) attached.

***) Items not accepted at these stores can be taken to Eco Stations, non-burnable waste processing facilities, the Seikatsu Kankyo Ka, or Shimin Centers.**

Disposal of Small Rechargeable Batteries (Lithium-Ion Batteries, Mobile Batteries, etc.)

- Never dispose of small rechargeable batteries at garbage collection sites. These batteries may cause fires in garbage collection vehicles or waste processing facilities due to the high risk of heat generation and ignition caused by damage, deformation, or impact.
- Manufacturers and import distributors of small rechargeable batteries are obligated to voluntarily collect and recycle them. To dispose of them, contact retailers (e.g., electronics stores or home improvement centers) to confirm whether they accept collections.
- If small rechargeable batteries cannot be collected by retailers, insulate the terminals with adhesive tape before bringing them to Eco Stations, non-burnable waste processing facilities (Minakuchi, Tsuchiyama, and Koka), the Seikatsu Kankyo Ka, or Chiiki Shimin Centers (local community center).

Garbage that is NOT Accepted

Items That Cannot Be Processed: Gas cylinders, tires, rims, motorcycles, farm equipment, lawn mowers, vehicle batteries, pianos, chainsaws, poisonous chemicals, paint, fire extinguishers, fire safes, pesticides, button cell batteries, etc.

Construction Waste (left by construction companies): bathtubs, sinks, hot water heaters (boilers), solar water heaters/bath, etc.

Industrial Waste: Farming materials (fertilizer bags, sheeting, etc.) construction scraps, etc.

Medical Waste: Hypodermic needles, syringes, I.V. packs (tubes, needles), and any other materials that could be infectious.

Please dispose of the above items through relevant stores or industrial waste disposal companies.
